£15.00 (30"+)

UPPER AND SENIOR SCHOOL

School Uniform: Eco Statement

The new uniform has been designed, and is being supplied, with both the environment and ethical standards in mind. Not only is it all machine washable at low temperatures, it should all go in to the same load. Even better than that, there is a certain amount of recycled plastic in every garment bought from our suppliers. For example, for every blazer made, 18 plastic bottles are saved from going to landfill; for every skirt, 5 bottles; for every pair of trousers, 5 bottles; and for every pair of shorts, 3 bottles. Moreover, our suppliers have a very strong ethical trading policy, and you can be assured that every single garment is produced under strict conditions with regard to the welfare of the workers. We believe that these are important standards for our new uniform.

**Trystan Edwards
Headteacher**

**Julie Barton
Chair of
Governing Body**

**Alex Harden
Vice Chair of
Governing Body**
